**REQUIREMENTS FOR
CONSTRUCTION DEBRIS RECLAMATION FACILITY PERMIT**

Montgomery County Code 59-C-9.84. Construction Debris Recycling Permit requires that:

- Construction debris be transported to the construction recycling facility in covered "Roll off" containers or covered trucks
- All sorting and processing be done in an enclosed structure.
- When construction debris is separated, collected and processed, an average of 50% of the processed materials by weight have a marketable value.
- Permanent storage is not permitted,
- Fifty-one percent (51%) of the materials processed be collected by the facility operator and
- the total volume of construction and demolition debris collected and recycled be reported to the Division of Solid Waste Services on an annual basis.

TO BE READ BY THE APPLICANT

Any information that the applicant has set forth in this application that is false or misleading may result in the rejection of the application. A condition for the issuance of this permit is that the proposed construction will comply at all times with the plans as approved by all applicable government agencies. I hereby declare and affirm, under the penalty of perjury, that all matters and facts set forth in the building permit application are true and correct to the best of my knowledge, information and belief.
